

MAYAR MOHAMED MOHAMED

QA / SOFTWARE TESTER

Kuwait | +965 9876 3331 | mayarmm145@gmail.com

PROFESSIONAL SUMMARY

QA / Software Tester with hands-on experience testing SaaS, e-commerce, clinic-management, and multilingual (Arabic/English) web and mobile platforms. Skilled in functional and regression testing, defect documentation, and requirements analysis, with practical exposure to project and product coordination — including PRD preparation, test scenario documentation, and cross-functional coordination with developers, designers, and stakeholders. Known for close attention to UI/UX consistency and responsive-design quality across web and mobile interfaces.

CORE SKILLS

Manual & Functional Testing • Regression & Retesting • Bug Reporting & Defect Tracking • Requirements Analysis & Documentation • Test Scenario & PRD Preparation • UI/UX & Responsive-Design Review • Cross-Functional Coordination • Stakeholder & Client Communication • SaaS, Web & Mobile Application Testing • Bilingual (Arabic/English) Interface Testing • Frontend Development Fundamentals • Graphic Design Fundamentals

PROFESSIONAL EXPERIENCE

QA / SOFTWARE TESTER

TechsGate General Trading Company, Kuwait

Dec 2025 – Present

- Perform functional, regression, and retesting across SaaS, e-commerce, clinic-management, and multilingual (Arabic/English) web and mobile applications.
- Document and prioritize software defects — covering functional and UI issues — and track resolution through to retest and closure.
- Gather, analyze, and clarify requirements with stakeholders; prepare PRDs, feature requirements, and test scenarios to support development and QA planning.
- Review dashboards, e-commerce, inventory, POS, subscription, permissions, payment, and invoicing modules for functional accuracy and usability.
- Conduct UI/UX and responsive-design reviews, checking cross-page consistency and visual quality across devices and screen sizes.
- Coordinate with developers, designers, and management to follow up on implementation, releases, fixes, and outstanding issues.
- Communicate with clients to clarify requirements, report progress, and manage expectations throughout the testing cycle.

EDUCATION

Bachelor of Engineering in Computer Engineering | Pharos University, Alexandria, Egypt

2025
